

A Thesis
On
**Structural and dielectric investigations of nano dispersed
poly (vinylidene fluoride) (PVDF) composites**

Submitted in the partial fulfillment of requirement for the degree of

Master of Technology

in

Material Science and Engineering

by

Akash Katoch

(60702002)

Under the supervision of

Dr. K.K. Raina

School of Physics and Materials science

Thapar University, Patiala, (Punjab)

June-2009

Dedicated
to
My Loving Parents

Certificate

This is to certify that the thesis entitled “**Structural and dielectric investigations of nano dispersed poly (vinylidene-fluoride) (PVDF) composites.**” submitted by **Akash Katoch** in the partial fulfilment of the requirement for the award of the degree of **M.Tech. in Materials Science and Engineering** from the School of Physics and Materials Sciences, Thapar University, Patiala, is a record of candidate’s own work carried out by her under my supervision and guidance. The experimental matter embodied in this report has not been submitted in part or full to any other university or institute for the award of any degree.

Date:
Place:

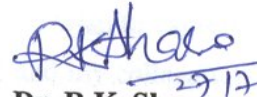

Dr. K.K. Raina
Deputy Director,
Dean, Faculty
Dean, RPG
Thapar University, Patiala

Countersigned by:

Dr. O.P. Pandey
Prof. and Head,
Thapar University,
Patiala, Punjab.

Dr. R.K. Sharma
Dean, Academic Affairs
Thapar University,
Patiala, Punjab.

Acknowledgment

I am submitting my thesis report and this work would not have been accomplished without the support, help and guidance of a large number of people. I express my deep gratitude and respect to my supervisor **Dr. K. K. Raina, Professor and Deputy Director, School of Physics and Material Science**, for his keen interest, strong motivation and constant encouragement during the course of the work. I thank him from the bottom of my heart for introducing me to the area of electroceramics. I thank him for his great patience, constructive criticism and myriad useful suggestions apart from invaluable guidance to me.

I am grateful to **Dr. O.P. Pandey, Professor and Head, School of Physics and Materials Science** for his encouragement and execution of thesis work.

I am extremely thankful to **Dr. M L Singla, Scientist "G"** in CSIO, Chandigarh, without whom the work would not have been possible.

I would also like to thank **Dr. Kulvir Singh, Assistant Professor and PG Incharge, School of Physics and Materials Science** for his constant guidance and encouragement.

I am also thankful to **Mr. Pankaj Kumar** and all the faculty members of School of Physics and Materials Sciences for their constructive suggestions at different stages of this work.

It gives me immense pleasure to express my special thanks to **Mr. Ravi Shukla (Ph.D. scholar)**, who always took keen interest in guiding me during my work. I wish to express my warm and sincere thanks to **Miss Neeraj Sharma (Ph.D. scholar)** and my colleagues **Preeti Makkar** and **Ranvir Panwar** for their support and their timely help and valuable discussions.

I owe my sincere thanks to all the staff members of School of Physics and Materials Science for their support and encouragement. Last but not the least; I would like to thank my parents for their moral support that kept my spirit up during the endeavor.

Akash Katoch
